

Dear Admissions Committee,

It is an absolute pleasure to recommend (FULL NAME) for admission to your university. Having known (NAME) for three years, I can attest to the fact that she was among the best students in our Medicine, Chemistry, and Biology specializations at Lyceum №2.

(NAME) was a student in my “Unusual Tasks of Chemistry,” “Basics of First Medical Aid,” “Social Ecology,” and “Anatomy” courses. From the outset, she revealed an innate understanding of chemical processes and a desire to further develop her knowledge. She showed an interest not only in general chemistry, but in the essence of this or that substance: organic, inorganic, nuclear, physical, forensic, atmospheric, environmental, computational, and medicinal chemistry. (NAME) received excellent preparation for further studies during laboratory assignments. For example, in “Unusual Tasks of Chemistry,” she was able to determine the mass share of a substance, find the necessary formulas, and screen for hydrate propensity. During theoretical lectures, (NAME) showed active participation by asking thought out questions, which greatly added to the intellectual atmosphere of the classroom. Her average grade on controlled assignments was a 4.5/5.

I also happened to be (NAME)’s homeroom teacher. As such, I was able to observe her engagement in extracurricular activities, whether it be rhythmic gymnastics and tennis to participation in the Lyceum’s student council. She also took part in several city competitions and scientific conferences in chemistry and mathematics, becoming a medalist in such conferences like “Young Researchers.” (NAME) has, undoubtedly, contributed to the pride of our Lyceum.

(NAME) made up her mind to become a doctor, and I feel as if nothing can lead her astray when it comes to her goal. Knowing that my former student will fulfill your expectations, I believe (NAME) is the ideal candidate for your Foundation programme. I give her my wholehearted recommendation.

If you have any further inquiries, please do not hesitate to contact me.

Sincerely,
